

Current Spa Restrictions

To our valued Guests. The State of Connecticut has relaxed some of the mandatory business restrictions related to COVID-19 on 5-19-21, however we have not relaxed our current COVID related restrictions. Because of this, until further notice, the Spa will continue to operate under the same restrictions set forth by the State of Connecticut when we reopened our Spa in July 2020. The safety and security of our Guests and Staff is our highest priority so we appreciate your patience and understanding as we continue to provide world-class spa services in a safe and secure environment.

Services we are currently providing:

- **Massages (no couples or wet treatments such as scrubs or wraps)**
- **Facials (50-minutes only)**
- **Waxing**
- **Hair services**
